

CONFIDENTIAL

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 21 March 1969

1. (Confidential - GLC) Richard Kimmel, Clerk for the Joint Committee on Atomic Energy, called to say that the Atomic Energy Commission had suggested that they get in touch with us to obtain a copy of a "report on the Moscow ABM system dated September 1968 and having something to do with DIA." I told Kimmel I would look into this and be back in touch with him. I talked with [REDACTED], of OSR, who said it would be difficult to identify this document without further information and at his suggestion I have contacted Mr. Andy Summers in Doctor Riegler's office at AEC in an effort to determine the specifics of the documents and how AEC happened to make this suggestion to the JCAE staff. 25X1A

2. (Confidential - GLC) In connection with my earlier meeting with him on the subject of student revolt, (see Journal of 11 March 1969). I advised Robert McCaughey, Administrative Assistant to Senator Karl Mundt, that I had been unable to find out anything about the incident which he mentioned supposedly involving a student who was arrested in New York and found to have in his possession a check drawn on a Chinese Communist bank. I asked McCaughey if he could provide any additional details on this and he said he could not. I advised McCaughey further that we would be in touch with him early next week to have someone come up and talk with the Senator about the international aspects of student unrest. In response to my query, he indicated that representatives of the FBI had briefed Senator Mundt on this subject several days ago.

3. (Internal Use Only - LLM) Called Ralph Devlin, House Post Office and Civil Service Committee staff, to obtain his prognosis on the Daniels bill (H.R. 770) dealing with financing of the Civil Service Retirement Fund and liberalizing benefits. Devlin feels a compromise version will be reported out. See Memorandum for the Record.
